Rust tolerance

Colour

Red thread tolerance

Salt tolerance

Fast recovery

The good wear tolerance is largely due to a fast recovery after severe damage - very important feature for sport use.

Wear resistant summer and winter

Due to high wear resistance both summer and winter Bellini 1 is ranked as one of the best sport type varieties in France

Very resistant to rusts

Excellent resistance to rusts, a criteria of utmost importance where the grass is allowed to grow for longer periods or with high cutting heights (semi-rough)

Description

Bellini 1 is bright-medium coloured with high density and fine leaves.
