Red thread tolerance

Salt tolerance

Close mowing tolerance

Slender creeping red fescue maintain their visual merit throughout the summer, saving water.

ABSLOM has very good density, producing a fine, weed free sward with an excellent appearance and reducing the need for maintenance.

Excellent persistence and wear tolerance so can be included in lawns for intensive use.

Its performance remains excellent even when mown to 4mm

"ABSLOM is the absolute top of the Slender Creeping Red Fescue, it gives your lawn and golf course the best density and persistence." - Thomas van Tetering, Product Manager - Grasses, Benelux
