

## GrassLopata

Your cutting and grazing solution.

- Includes Bowie, new to the PPI in 2021
- High spring growth from Nifty and Nashota for early turnout
- Aspect is extremely palatable as shown by its high ranking in the Teagasc grazing trials
- All varieties used in this mixture are growing and performing on our partner farms

A highly versatile mixture with an excellent combination of high yields, quality and persistence.

Designed for mixed grazing and silage systems delivering early spring growth with Nifty and Nashota.

Includes DLF's top PPI variety Nashota, and Aspect which is one of the leading varieties on the Teagasc grazing trials.
