

GrassLopata

Suitable for uses across all livestock ranges that will withstand heavy grazing by all classes of livestock.

- Good spring production for early turnout
- Very high first-cut silage yields
- Broad range of heading dates to allow flexibility in cutting date

A versatile mixture to cut or graze.

Suitable for all classes of stock.

Varieties selected from both the Irish and Scottish recommended lists.

Timothy is included for additional spring growth, palatability and winter hardiness.
