

Long term horse grazing with an option to produce a quality hay crop.

- Produces a hard-wearing, dense sward
- Low sugar grasses to prevent laminitis
- Capable of producing a crop of hay
- An extremely versatile equine mixture

Specially formulated low-sugar grass mixture for equine use.

Creeping Red Fescue helps to form a dense, hard-wearing sward.

The inclusion of Timothy helps to improve the quality of hay.

Whether you have a pony or a stud farm, DLF Horse Paddock offers the very best grass mixtures for your equine animals.

DLF TOP TIP:

To reduce wear, overseed horse paddocks at 10kg per arce
