

DLF 100% ORGANIC LONG TERM

Dual purpose 100% organic grass seed will cut or graze

- Contains 100% organic seed
- Mixture of grass and legume species can produce high yields without inorganic fertilisers
- Varieties selected for persistence, yield and quality

A dual-purpose mixture for organic systems.

A mixture of grass and clover species leads to the production benefits of a multi-species sward.

Capable of producing high yields without inorganic fertilisers.

Extremely palatable, protein-rich mixture.

| CUT & GRAZE [8 YEARS PLUS] DLF 100% ORGANIC LONG TERM | | |
|--|------------------------|---------|
| 50% | Premium | Organic |
| 15% | Diwan | Organic |
| 15% | Polim | Organic |
| 10% | Dolina Timothy | Organic |
| 5% | Rivendale White Clover | Organic |
| 5% | Calisto Red Clover | Organic |
| Available in 12 kg packs | | |

A true all-rounder for the organic grower. Dual purpose will cut or graze equally well over a period of years.

Contains good clover levels to maintain season long production. Grazing quality is enhanced by the inclusion of varieties with high fibre digestibility
